The screenshot shows the IBM Watson Assistant interface. The sidebar on the left has three main sections: 'Actions', 'Variables', and 'Saved responses'. The 'Variables' section is currently selected and expanded, showing a list of variables created by the user. The variables are listed in a table with the following columns: Name, Type, Initial value, Description, and Variable ID. There are three variables: 'Address' (Type: Free text, Variable ID: Address), 'Name' (Type: Free text, Variable ID: Name), and 'Pincode' (Type: Number, Variable ID: Pincode). At the top right of the variables list is a 'New variable' button. At the bottom right is a 'Preview' button. The bottom of the screen shows the Windows taskbar with various application icons and the system clock indicating 12:52 PM on 9/11/2022.

Name	Type	Initial value	Description	Variable ID
Address	Free text			Address
Name	Free text			Name
Pincode	Number			Pincode
