CONTAINERIZING THE APPLICATION:

The screenshot displays the Docker Desktop application interface. On the left sidebar, the 'Containers' tab is selected, with other options like 'Images', 'Volumes', 'Dev Environments', and 'Extensions' visible. The main panel shows the 'Containers' section with a toggle for 'Only show running containers' and a search bar. A table lists the running containers, with one container named 'kind_saha' (ID: 90dd6397eafd) running the 'app:latest' image. The container is in a 'Running' state, mapped to port 5000, and started 7 seconds ago.

	NAME	IMAGE	STATUS	PORT(S)	STARTED	ACTIONS
<input type="checkbox"/>	kind_saha 90dd6397eafd	app:latest	Running	5000:5000	7 seconds ago
